## Subject Index *Scientia Horticulturae* Volume 73 (1998)

### A

#### Acclimatization

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

#### Air humidity

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

#### *Allium sativum* L.

Thermotherapy in virus elimination from garlic: influences on shoot multiplication from meristems and bulb formation in vitro, 73 (1998) 193

#### *Annona*

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya (*Annona cherimola* Mill.) and sugar apple (*Annona squamosa* L.) seedlings, 73 (1998) 89

#### *Armeniaca vulgaris*

Changes in SH-containing compounds and catalase activity in apricot flower bud during the winter season, 73 (1998) 1

#### Artificial seed

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

### B

#### Banana

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

#### Bark

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

#### Bark storage protein

Immunological cross-reaction between bud and bark proteins of dormant deciduous trees, 73 (1998) 165

#### BBSV

Effect of pea seed borne mosaic and broad bean stain viruses on lentil growth and yield in Jordan, 73 (1998) 175

#### Breeding

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

#### Bud break

Changes in water status in peach buds on induction, development and release from dormancy, 73 (1998) 111

### C

#### CAM

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

#### Carbohydrates

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

**Carbon dioxide**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

**Carbon nutrition**

Effects of culture temperature on the enlargement, sugar uptake, starch accumulation, and respiration of in vitro bulblets of *Lilium japonicum* Thunb., 73 (1998) 239

**Carotenoids**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Catalase activity**

Changes in SH-containing compounds and catalase activity in apricot flower bud during the winter season, 73 (1998) 1

**Chlorophyll**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Chrysanthemum**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

**Classification**

Relationships among some cultivated species and varieties of *Alstroemeria* L. based on RAPD analysis, 73 (1998) 37

**'Cleopatra' mandarin**

Ethylene association with chloride stress in citrus plants, 73 (1998) 99

**Climbing cacti**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**CO<sub>2</sub> assimilation**

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya (*Annona cherimola* Mill.) and sugar apple (*Annona squamosa* L.) seedlings, 73 (1998) 89

**Container media**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

**D****Dehydrins**

Changes in water status in peach buds on induction, development and release from dormancy, 73 (1998) 111

**Diethyl sulphate**

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

**Dormancy**

Immunological cross-reaction between bud and bark proteins of dormant deciduous trees, 73 (1998) 165

**E****EDTA**

Effects of calcium source and temperature regime on calcium deficiency during hydroponic forcing of tulip, 73 (1998) 137

**Encapsulated node**

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

**Ethylene**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

**Ethyl methanesulphonate**

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

**F****Fertiliser recommendation**

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

**Fertilization**

Effects of calcium source and temperature regime on calcium deficiency during hydroponic forcing of tulip, 73 (1998) 137

**Field emergence**

Effect of seed drying on germination behaviour in citrus, 73 (1998) 185

**Floral anomalies**

Floral characteristics of heat-tolerant and heat-sensitive tomato (*Lycopersicon esculentum* Mill.) cultivars at high temperature, 73 (1998) 53

**Flower bud induction**

Evolution of endogenous gibberellins at different stages of flowering in relation to return bloom of cactus pear (*Opuntia ficus-indica* L. Miller), 73 (1998) 45

**Flowering**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

**Flowering inhibition**

Evolution of endogenous gibberellins at different stages of flowering in relation to return bloom of cactus pear (*Opuntia ficus-indica* L. Miller), 73 (1998) 45

**Fruit**

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

**Fruit characteristics**

Evolution of endogenous gibberellins at different stages of flowering in relation to return bloom of cactus pear (*Opuntia ficus-indica* L. Miller), 73 (1998) 45

**Fruit set**

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

**Fusarium**

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

**G****Germination**

Effect of seed drying on germination behaviour in citrus, 73 (1998) 185

**Girdling**

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

**Glutathione**

Changes in SH-containing compounds and catalase activity in apricot flower bud during the winter season, 73 (1998) 1

**Growth**

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya (*Annona cherimola* Mill.) and sugar apple (*Annona squamosa* L.) seedlings, 73 (1998) 89

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

**H****Hardiness**

Changes in water status in peach buds on induction, development and release from dormancy, 73 (1998) 111

**Heat tolerant**

Floral characteristics of heat-tolerant and heat-sensitive tomato (*Lycopersicon esculentum* Mill.) cultivars at high temperature, 73 (1998) 53

**High culture temperature**

Effects of culture temperature on the enlargement, sugar uptake, starch accumulation, and respiration of in vitro bulblets of *Lilium japonicum* Thunb., 73 (1998) 239

**Hybrid pedigree**

Relationships among some cultivated species and varieties of *Alstroemeria* L. based on RAPD analysis, 73 (1998) 37

**Hylocereus polyrhizus**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**I****Immunological cross-reaction**

Immunological cross-reaction between bud and bark proteins of dormant deciduous trees, 73 (1998) 165

**Inflorescence bud protein**

Immunological cross-reaction between bud and bark proteins of dormant deciduous trees, 73 (1998) 165

# J

## Jasmonic acid

Thermotherapy in virus elimination from garlic: influences on shoot multiplication from meristems and bulb formation in vitro, 73 (1998) 193

## Jordan

Effect of pea seed borne mosaic and broad bean stain viruses on lentil growth and yield in Jordan, 73 (1998) 175

# L

## Leaf diffusion resistance

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

## Lentil

Effect of pea seed borne mosaic and broad bean stain viruses on lentil growth and yield in Jordan, 73 (1998) 175

## Lighting period

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

## Light quality

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

## Lily

Effects of culture temperature on the enlargement, sugar uptake, starch accumulation, and respiration of in vitro bulblets of *Lilium japonicum* Thunb., 73 (1998) 239

# M

## Magnetic resonance imaging

Changes in water status in peach buds on induction, development and release from dormancy, 73 (1998) 111

## Malus domestica

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

## Meristem culture

Thermotherapy in virus elimination from garlic: influences on shoot multiplication from meristems and bulb formation in vitro, 73 (1998) 193

## Model

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

## Multiplication

Effects of culture temperature on the enlargement, sugar uptake, starch accumulation, and respiration of in vitro bulblets of *Lilium japonicum* Thunb., 73 (1998) 239

## Musa

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

## Mutation

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

# N

## Neighbor Joining Method

Relationships among some cultivated species and varieties of *Alstroemeria* L. based on RAPD analysis, 73 (1998) 37

## Nitrogen content

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

## Nitrogen uptake

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

## Non-destructive analysis

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

## Non-structural carbohydrates

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

## Nuclear magnetic resonance imaging

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

**Nutrition**

Effects of calcium source and temperature regime on calcium deficiency during hydroponic forcing of tulip, 73 (1998) 137

**O****Orchids**

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

**Oxygen**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

**P****Photoautotrophic**

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

**Photoinhibition**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Phylogeny**

Relationships among some cultivated species and varieties of *Alstroemeria* L. based on RAPD analysis, 73 (1998) 37

**Pitahaya**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Pitaya**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Polyamines**

Ethylene association with chloride stress in citrus plants, 73 (1998) 99

**Ponkan mandarin**

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203

**Postharvest**

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

**Propagation**

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

**PSBMV**

Effect of pea seed borne mosaic and broad bean stain viruses on lentil growth and yield in Jordan, 73 (1998) 175

**S****Salinity**

Ethylene association with chloride stress in citrus plants, 73 (1998) 99

**Seed drying**

Effect of seed drying on germination behaviour in citrus, 73 (1998) 185

***Selenicereus megalanthus***

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Shade**

Responses of two hemiepiphytic fruit crop cacti to different degrees of shade, 73 (1998) 151

**Shoot multiplication**

Thermotherapy in virus elimination from garlic: influences on shoot multiplication from meristems and bulb formation in vitro, 73 (1998) 193

**Sodium alginate**

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

**Sodium azide**

Mutation breeding of banana cv. Highgate (*Musa* spp., AAA Group) for tolerance to *Fusarium oxysporum* f. sp. *cubense* using chemical mutagens, 73 (1998) 11

**Soil atmosphere**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

***Solanum tuberosum* L.**

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

**Stigma exertion**

Floral characteristics of heat-tolerant and heat-sensitive tomato (*Lycopersicon esculentum* Mill.) cultivars at high temperature, 73 (1998) 53

**Stomatal conductance**

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya

(*Annona cherimola* Mill.) and sugar apple  
(*Annona squamosa* L.) seedlings, 73 (1998) 89

### **Sulphydryl compounds**

Changes in SH-containing compounds and catalase activity in apricot flower bud during the winter season, 73 (1998) 1

### **Synthetic seed**

Synseeds in potato: an investigation using nutrient-encapsulated in vitro nodal segments, 73 (1998) 179

## **T**

### **Temperature**

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya (*Annona cherimola* Mill.) and sugar apple (*Annona squamosa* L.) seedlings, 73 (1998) 89

### **Thermotherapy**

Thermotherapy in virus elimination from garlic: influences on shoot multiplication from meristems and bulb formation in vitro, 73 (1998) 193

### **Tissue culture**

Micropropagation, decontamination, transcontinental shipping and hydroponic growth of *Cattleya* while sealed in semipermeable membrane vessels, 73 (1998) 23

Effects of culture temperature on the enlargement, sugar uptake, starch accumulation, and respiration of in vitro bulblets of *Lilium japonicum* Thunb., 73 (1998) 239

### **Tomato**

Floral characteristics of heat-tolerant and heat-sensitive tomato (*Lycopersicon esculentum* Mill.) cultivars at high temperature, 73 (1998) 53

### **Topple**

Effects of calcium source and temperature regime on calcium deficiency during hydroponic forcing of tulip, 73 (1998) 137

### **'Trifoliata' orange**

Ethylene association with chloride stress in citrus plants, 73 (1998) 99

### **'Troyer' citrange**

Ethylene association with chloride stress in citrus plants, 73 (1998) 99

## **V**

### **Vapor pressure deficit**

Effects of temperature on growth, dry matter production and CO<sub>2</sub> assimilation in cherimoya (*Annona cherimola* Mill.) and sugar apple (*Annona squamosa* L.) seedlings, 73 (1998) 89

### **Vase life**

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

## **W**

### **Watercore**

Loss of watercore from 'Fuji' apple observed by magnetic resonance imaging, 73 (1998) 213

### **Watering**

Pot soil air composition in conditions of high soil moisture and its influence on chrysanthemum growth, 73 (1998) 125

### **Water loss**

Effects of air humidity, lighting period and lamp type on growth and vase life of roses, 73 (1998) 229

### **White cabbage**

An empirical model for describing growth and nitrogen uptake of white cabbage (*Brassica oleracea* var. *capitata*), 73 (1998) 75

## **X**

### **Xylem**

The effect of time of girdling on carbohydrate contents and fruiting in Ponkan mandarin (*Citrus reticulata* Blanco), 73 (1998) 203
